2017 Awards For Outstanding Building Enclosure Projects

Project Awards Information and Entry Forms

GENERAL INFORMATION

- All project submissions will be on display at 2018 BEC St. Louis Chapter events
- Category winners and Overall Project of the Year Awards will be announced at the annual St. Louis Chapter BEC Holiday Party on December 7, 2017
- Category winners and Overall Project of the Year winner will be recognized in St. Louis Chapter BEC publications as well as a winter issue of a regional publication
- Overall Project of the Year Award will be presented to project owner, architect, general contractor, installing contractor and material manufacturer
- Projects submitted do not have to be local to the St. Louis area but must be associated with a St. Louis based firm (architect, contractor, consultant, etc)
- There is no fee for project award submissions

JUDGING INFORMATION

- Judges have been selected by the BEC St. Louis Chapter Awards Committee
- Judges will review and judge each project submission, based on submission information
- Project submissions will be scored based on a pre-determined grading criteria which includes project size and complexity, design challenges, installation challenges, schedule, and quality
- Judges will not have access to any company and/or product information

PROJECT CATEGORIES

- Waterproofing
- Air Barrier Systems
- Roofing
- Exterior Cladding (masonry, metal panels, etc.)
- Curtain Wall / Glass & Glazing
- Overall Project of the Year

SUBMISSION REQUIREMENTS

- Project submittals are due no later than November 1, 2017
- Submitted projects shall have a Substantial Completion Date between January 1, 2016 and December 31, 2017
- Entry Forms 1 and 2 and documents must be completed and submitted
- Project submissions can apply for any of the Project Categories as well as Overall Project of the Year
- See Entry forms 1 and 2 for specific requirements
- Project submissions should be made to:

Mike Rafferty 812 E Taylor Avenue St. Louis, MO 63147

Complete this form including any photographs and submit in a separate sealed envelope.

Complete and submit (1) copy of this form to: **Mike Rafferty 812 E Taylor Avenue St. Louis, MO 63147**

Name of Project: _____

Project Information

Address: _____

Project Start Date: _____

Substantial Completion Date: _____

Check the Category for which your entry best qualifies:

- Waterproofing
- Air Barrier Systems
- Roofing
- Exterior Cladding
- Curtain Wall / Glass & Glazing
- Overall Project of the Year

General Project and Scope Information

Use the space below to briefly describe the type of project, project delivery method and the scope of work performed as it relates to this submission (i.e. approximate square footage of specific scope)

Design and/or Preconstruction Hurdles overcome

Use the space below to briefly describe any and all design development efforts and/or preconstruction efforts involved with this project and any benefits these efforts provided during construction and installation.

ENTRY FORM 2 (Continued)

Project Schedule

Use the space below to briefly describe the project schedule as it relates to this project submission and any challenges presented by this schedule (i.e. fast track schedule, air barrier scheduled to be installed during winter months, etc.)

Installation Challenges

Use the space below to briefly describe any challenges presented relative to installation and how these challenges were overcome

Other Challenges/Information

Use the space below to briefly describe any other challenges or aspects of your project that make your project unique (i.e. tie-in details, material compatibility, code requirements, energy saving requirements, envelope testing, etc.)

ENTRY FORM 2 (Continued)

Testing

Was any enclosure related testing performed on this project?

Yes

No

If Yes, please briefly describe testing specifics

Project Photos

Please provide at least six (6) photographs (not more than 12) showing specific features of the submission scope of work. Before, during and after shots are preferred.

Submitted By:

- Project Owner
- Architect
- General Contractor/Construction Manager
- Material Manufacturer
- Material Supplier
- Project Consultant
- Installing Specialty Contractor
